Seeking Opportunities As Solutions Consultant

Analytical and customer-focused professional with a background in computer science, consulting support, data management, and client-facing communication. Former collegiate athlete and coach with experience translating complex information into actionable solutions for customers and stakeholders. Skilled in SQL, Python, Excel, Power BI, and data-driven problem solving in fast-paced team environments.

Related Experience:

AI Implementation Assistant | Kindred Advisory LLC | Yorktown, NY April 2026 - Present

- Assisted in developing AI-assisted workflow applications using Claude to explore process automation opportunities for clients
- Conducted iterative testing and refinement of AI-generated outputs within business process applications
- Assisted with prompt engineering, workflow mapping, and feature testing during early-stage application development

Data and Events Management Intern | Sports Recruits | New York, NY June 2023 - August 2023

- Leveraged Google Sheets to manage and transform datasets using formulas and functions such as XLOOKUP
- Engaged with customers' inquiries to deliver swift and beneficial customer service

Legal Summer Intern | Pfizer, Inc. | New York, NY June 2022 - August 2022

- Analyzed internal datasets from Pfizer's database to uncover patterns and recommend process improvements
- Researched and built a database containing information from competitive companies SEC filings
- Participated in cross-functional development programs, building teamwork, communication, and leadership skills, while connecting with multiple members of the Legal Department through intern-led interviews

Additional Experience:

Assistant Coach Hendrick Hudson High School Track and Field | Montrose, NY November 2024 - Present

- Coached over 100+ student athletes, resulting in numerous personal records, sectional champions, two state championship qualifiers and thirteen national championship qualifiers
- Managed day-to-day operations of an 80+ person team including practices, lifts, and meet logistics
- Collaborated with a staff of coaches to develop team-wide performance strategies

Personal Trainer and Group Fitness Instructor | Level Fitness | Yorktown, NY November 2024 - Present

- Conducted customer discovery sessions to deliver individualized programs based on unique SMART goals, ability level, physical and time constraints
 - Built and managed a strong client portfolio of 10 clients at once resulting in more than \$10,000 in revenue
 - Presented complex movement concepts in clear, engaging formats to groups of 10–25 participants, tailoring explanations to diverse audiences
-

Education:

Bachelor of Arts in Computer Science | Lehigh University | Bethlehem, PA Graduated 2024

Coursework:

- Simulated 3D imagery with point lights being ray traced off of objects
 - Implemented a variation of social media app Yik Yak utilizing Javascript, HTML, and CSS.
